FEATURED Part 2

Practice areas

1. Protection of Trademarks and Distinctive Signs: We offer complete advice and processing of processes related to trademarks and distinctive signs. From searches and registrations, to renewals, surveillance, changes and transfers, and portfolio management, we are here to protect and effectively manage your intangible assets.
2. Registration and Protection of Patents and Designs: Our team is in charge of the study of previous rights, registration procedures and infringement claims and defence in patents, utility models and industrial designs. We also manage the payment of annuities to guarantee the continuous protection of our innovations.
3. Copyright and Software: We safeguard your works and copyright, providing advice in the registration process and legal defense in conflicts related to intellectual property, including software.

Leading practitioners

Mr. Juan Oriol, LLM., Esq.

JUAN ORIOL is a recognized Lawyer, graduated from the University of Barcelona with a Master's degree (LLM) in Intellectual Property and New Technologies from ESADE (Ramón Llull University) and a member of the Illustrious Bar Association of Barcelona (ICAB). As a partner of Oriol-IP with more than twelve years of specialized professional experience, working and advising on matters of Intellectual Property and New Technologies to national and international companies, Juan Oriol has demonstrated his commitment and excellence in this field of law. In addition to his solid training and extensive professional experience, he is also an enthusiast of the technological and innovative world. His dedication has led him to actively participate in innovative projects and provide advice to startups and multinational companies in key areas such as intellectual property and business growth strategies. Thanks to its deep knowledge and experience, it has established itself as a leader in its field, recognized for its ability to find innovative and practical solutions that satisfy the needs of its clients.
